

A
Report On
“ (COVID-19) Awareness & Precautionary Measure Camp”

Date: - 19th April 2022
Venue: Gopalpur, Amravati

Organized by
Department of Civil Engineering
P.R. Pote (Patil) College of Engineering & Management,
Amravati.

Objective:-

To create awareness and educate the local community regarding preventive intervention techniques that would help in reducing the transmission of the disease.

Highlights of the program

In the recent outbreak of Corona Virus globally and to secure India from its attack, an Awareness programme on the Prevention and Spread of Noval Corona Virus (COVID-19) was organized by the Departments of Civil Engineering, P.R.Pote college of Engineering & Management, Amravati on 19th April 2022 at Gopalpur, district amravati. The peoples in the village appreciate the initiative.

There is a need for regular educational interventions and training programs on infection control practices for COVID-19 across all the villages. . It is important to remove sputum from lungs to help breathe more easily, prevent chest infections and reduce bouts of coughing. Leaving sputum from chest can make your condition worse. Patients recovering from COVID-19 often experience a feeling of tiredness and exhaustion both physically and mentally caused by gentle exertion, this will improve in time.
