Department of Electronics & Telecommunication Engineering
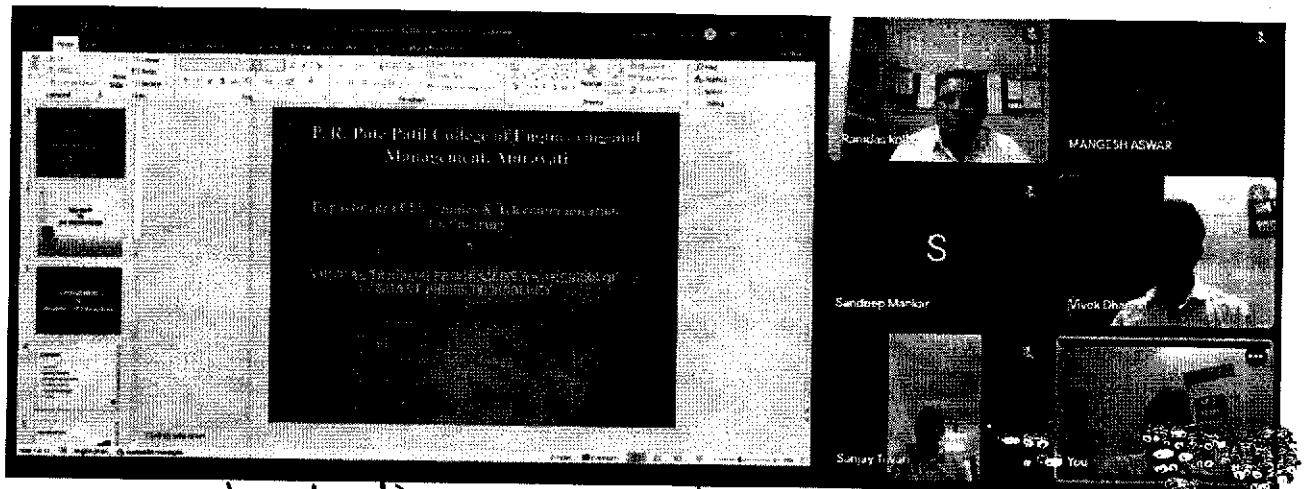

Virtual Training Program on Awareness of Smart Phone Technology

As a part of professional development training program was organized by the institution for non-teaching staff in a virtual mode. The topic of program was Awareness of Smart Phone Technology which was organized on 18/05/2021, by the department of Electronics and Telecommunication at P. R. Pote Patil College of Engineering & Management, Amravati.
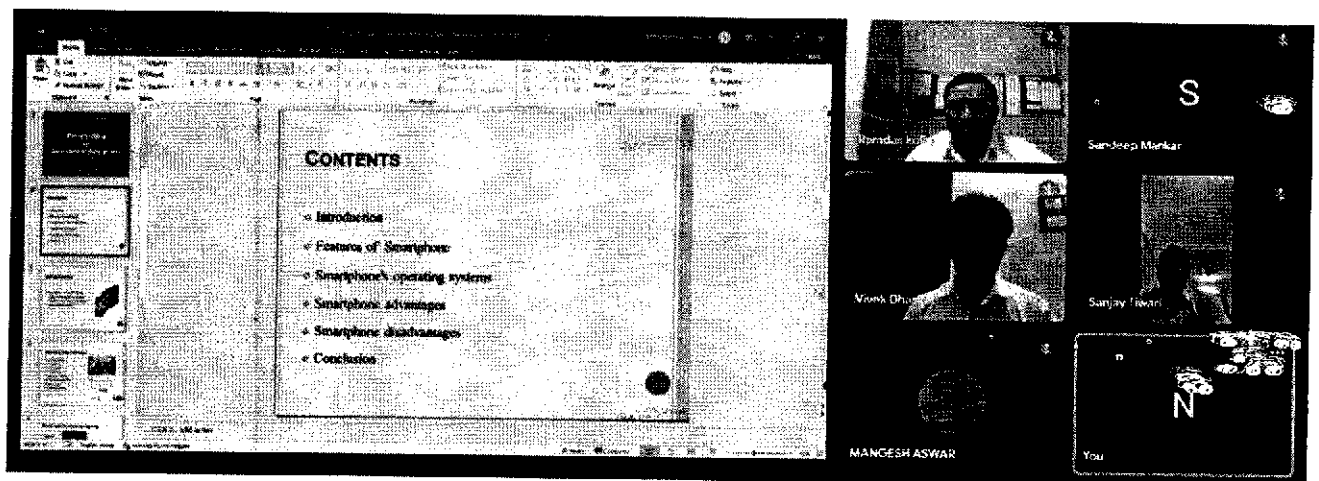

Now a day's Smartphone has been spread among the worldwide. A smartphone is a mobile phone running a complete operating system in a manner similar to a traditional computer, which offers advanced computing abilities and connectivity options. These features enable new kinds of mobile services that in turn shape the usage habits of smartphone users. This program is helpful for Smartphone usage and how it affects them. It examines the role of frequent use of Smartphones that plays in their work. It was recommended that participants should learn to manage their time properly and to promote the learning process so that use of smart phone will will benefit to perform their task in order to carry out their work effectively in the present scenario.
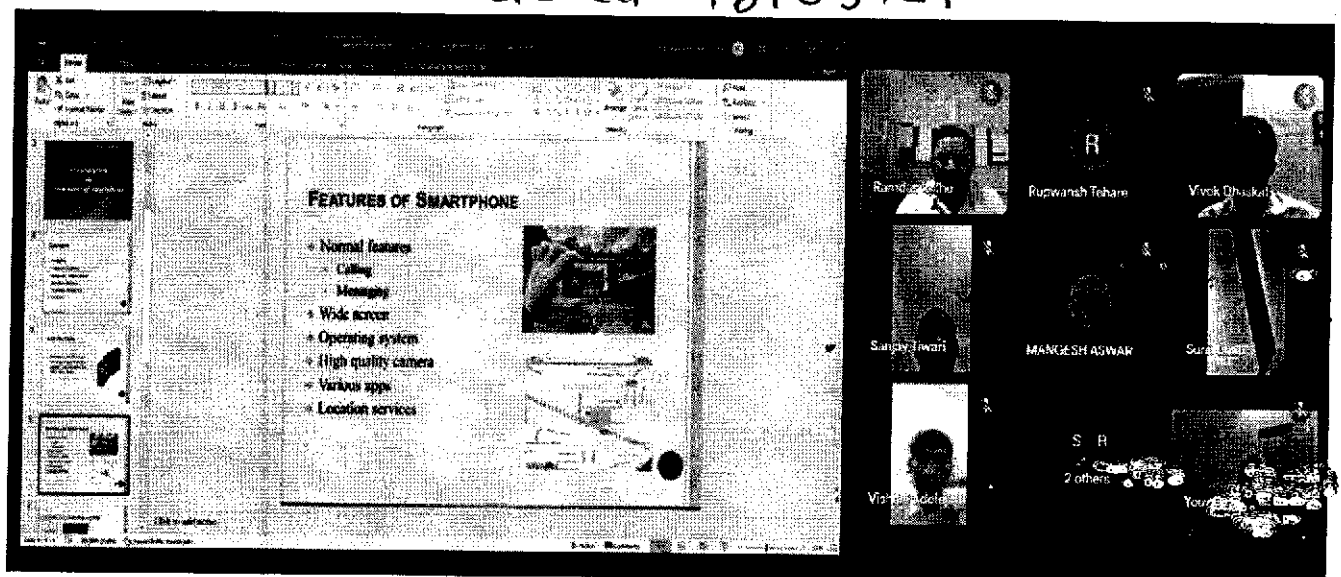

Objective of program was as follows

1. To find out the department wise usage Smartphones.
2. To evaluate the operating system used in Smartphones
3. To examine the use of smartphone applications
4. To identify the purpose, purchase, and use of Smartphones
5. To find out the time spent and money spent on searching the information.
6. To study the awareness of the application of information sharing services
7. To identify the problems of using Smartphone applications.
